

Tech Line Sales Joins as Sales Representatives in Upper Midwest

techMatrix, LLC of Minneapolis, MN is pleased to announce that Tech Line Sales will be representing the RSX Series Automated Resistance Spot Welders in the upper Midwest - Minnesota, North and South Dakota, Iowa, and Western Wisconsin. The RSX Series is a great fit for Tech Line Sales since they already sell Unitek Miyachi laser, resistance, and laser marking equipment in this region. The RSX Series and WeldWorks™ software suite have been designed to seamlessly integrate into high performance weld controllers. Our RSX platform offers manufacturers a faster, less expensive, and more convenient way to extend a bench top system without having to seek out a system integrator who may have limited experience with RSW. Tech Line Sales has the technical knowledge and industry experience to ensure customers are matched with the right solution.

About Tech Line Sales Company:

Tech Line Sales represents high quality companies providing capital equipment and supplies to electronic, medical, and manufacturing companies. Tech Line Sales is committed to providing its customers with the best possible service and support for all their equipment, material, and component needs.

About techMatrix, LLC:

techMatrix LLC is a start-up company dedicated to designing, building, and assembling both custom and standard PC based automation equipment for high technology companies. Our personnel have decades of experience developing semi-automated to fully automated machines that integrate motion control, vision, data acquisition, and measurement devices to solve real world manufacturing problems.
